

# 2006 RESEARCH COMPETITION

## STATISTICAL INFORMATION

The objectives of the 2006 CPSI Research Competition were to support patient safety research and demonstration projects that:

- Involved interdisciplinary and/or multi-jurisdictional teams of researchers and decision makers. Ideally, direct care providers, patients, personal caregivers, or members of the public would be engaged in the funded projects;
- Demonstrated potential for improvements in patient safety;
- Were readily applied to other healthcare services, settings, or jurisdictions across Canada; and
- Had a strong emphasis on knowledge transfer going beyond publication in peer-reviewed journals and presentations at scientific conferences.

### Geographical Distribution

### Financial Summary

- Projects eligible for funding requested between \$17,000 to \$120,000 from CPSI. The average amount requested was approximately \$94,317.
- The projects will be co-sponsored by numerous organizations across Canada, with co-sponsors contributing \$2.01M to the 15 projects.
