COMMENTS:

- Your active participation in your care or the care of your loved one is important to us and we value your feedback
- Our goal is to provide you with safe, high quality healthcare. Using soap and water or alcohol based hand rubs helps to prevent the spread of germs
- Please observe the healthcare provider today to see if they are washing their hands or using an alcohol based hand rub before and after they provide care to you or your loved one
- Thank you for your willingness to be a partner with us in your own healthcare or the healthcare of your loved one
